Here is a story of thrilling interest of facts connected with the famous North-West Mounted Police. Captain Deane joined the force when it was in the infancy—in 1871, drew up its first Regulations. He witnessed its growth and development, and has seen the force grow from a handful of men to the present force of 1,000 men. PLAYED A T  
COUNTRY CLUB

J. Pirie Wins Simpson-Hunter Cup and Brookbank and Henwood-Bonnerville Event

Three interesting competitions were played at the Edmonton Country Club during the past week. In the Simpson-Hunter Cup competition, J. Pirie, who had been the favorite, won by a score of 2 up on the Colonel, his score being 40 for the 18 holes. Anderson, N. B. McLean and O. H. Henwood tied for second place, all being 2 up on bogey.

In the Bonnerville Creek competition, Bell and Sator defeated Swainson and Weston after a hard match, 2 up and 1 to play, thus going into the final against Brookbank and Henwood. The final match was decided upon the green at the 18th hole, the score being all square after the 17th hole. Brookbank and Henwood won out in beautiful style.

In the play-off of the tie for the indie competition for the Edmonton Cup and Mailing Cup, between Mrs. McDonald and Mrs. Seattle, the latter won.

## SPORTING COMMENT

Harvard's victory over Cornell on Saturday was a real surprise, strange to say, that statement that the old time football game, for it must be remembered that the Harvard team has been lacking in class of that of last season, when Cornell turned the trick on the Harvard boys to the tune of 10 to 0. Yale's victory over W. and J. makes Yale's team look up to be formidable this year. W. and J. has produced a mighty team, the best in the past few years, and last year they rated as one of the very best in the country. The Princeton Tigers again had their hands full in disposing of Dartmouth 7 to 3, while the Colby-University of Maine game must have been a wonder, judging from the score, a 6 to 0. Cornell's west, University of Michigan through with a one point advantage over Syracuse, the score being 14 to 15, not to be wondered at particularly, as the Northwestern team has already proved itself to be a great scoring machine. University of Pittsburgh, 4 to 3 victory over University of Pennsylvania shows the results of spending money upon advertising.

The security of prairie chicken, which is especially noticeable this season, has led to an agitation that the government should protect these birds for at least three seasons. Every hunter in Alberta has noticed the shortage of these prime game birds, and all real sportsmen would be loath to forego the sport of hunting them. If they realized that, unless something is done to protect them, they are certain to become extinct within a few years. The movement to take them up in Manitoba as well as Alberta, and it is to be hoped that the necessary action is taken. It is the power that is in the three west provinces to save these birds.

## EDDIE CASEY

IS NEW STAR  
FOR HARVARD

Destined to Rank Among Most Famous Footballers of Past Decade

CAMBRIDGE, Mass., Oct. 28.—A Harvard eleven of uncertain power found itself against Cornell yesterday, and won 27 to 0. The Harvard team, which was favorite in the betting, were scouted in such few attacks as they were given opportunity to make, and found their defense penetrated repeatedly by the Harvard players.

Principal among these was Eddie Casey, who was named by the Harvard and effective running attack that he was destined to make with Harvard's most prominent ground gainers of the decade. With ball like plunger, ably supplemented Casey on open plays. Cornell's first line of defense, a fine play, furnished with the ball came to them and generally seemed a team in the making rather than an aggregation, half a season away from the top.

## A Contrast:

Illustrating a problem which must be faced by many women.

A WIDOW AND HER FRIENDS. No. 1—Her brother would like to borrow a few thousand dollars, to be paid back any time she needed it.

No. 2—She is strongly advised to buy land.

No. 3—Her father is greatly worried over his business.

No. 4—Her husband's most intimate friend wants her against making a bad investment, but will not take the responsibility of advising her what to do.

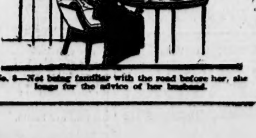

No. 5—Her own thinks she should invest in flying machines and make a fortune.

No. 6—Her uncle has worked out a plan for taking her into partnership in his business.

No. 7—An "old friend of her husband" offers an investment in oil shares paying 30% dividend.

No. 8—Not being familiar with the road before her, she begs for the advice of her husband.

Far into the future, as long as she shall live, the monthly income cheque of the Canada Life will come to her door.

You may have already made provision for your family, but

## Consider This:

There is danger of a man leaving large property interests and too little income. Property must be producing income in order to be of immediate benefit to a bereaved family. A weekly or monthly income is the natural thing for most people.

A woman can keep a family together on even a small income, provided it is REGULAR.

Financial problems should not be thrust upon a woman at a critical time.

Ninety per cent. of money paid beneficiaries is lost or spent within seven years.

The hands of unscrupulous men are always outstretched for money held by the unwary.

Large sums of money on hand invite extravagance or undue expenditure.

Assuming enough left in cash to pay the immediate obligations of an estate, even a \$25.00 monthly income will pay the rent if necessary, leaving a woman's mind free at that score, at least. (The Canada Life bases its rates on a \$10.00 monthly income, and welcomes applications for even that amount.)

Out of sixteen legatees under the will of the late J. Pierpont Morgan, only four—men of experience and ability—received outright legacies. The other twelve, women and men of less experience, received "incomes."

Economy in the handling of funds is assured by an organization such as the Canada Life, with large funds to invest and properly equipped to handle investments.
